

AIRTURN™ DUO 200

freedom to perform

Bluetooth Wireless Silent Footswitch Controller

The professional choice for acoustic or recording musicians. Suitable for both standing or seated performers.

Experience customized hands-free app control. Keep your hands on your task and take your practice and performance to a new level.

- Turn pages, scroll lyrics and tabs
- Trigger backing tracks and effects
- Cue audio and lighting
- Capture video, photo, and more!

Best Page Turning Pedal

The AirTurn DUO 200 began over a decade ago as a simple page turner for sheet music readers. Today, it has become the best page turner on the market due to its high-quality and long-lasting design. Featuring tactile, silent switches, the DUO 200 is nearly indestructible. The DUO 200 has a longer battery life, greater range, and faster connectivity than its competitors. Plus, it is completely customizable for keystrokes, shortcuts, switching types, MIDI, and so much more!

Depending on what app or software you choose, you can do more than turn pages. You can scroll lyrics and tabs, start and stop back tracks, metronomes, and much more. The DUO 200 is the professional choice for taking control of your tablet or computer.

Paperless

No more paper flying away or heavy books to carry. Go green!

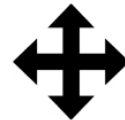

Hands-Free

Keep your hands on your task.

Wireless

No more cables to clutter your setup.

Versatile

Hundreds of compatible apps.

Remote Control for Teleprompters and Presentations

Using a teleprompter has become a popular solution due to easy and affordable access to apps and tablets. However, controlling the scroll of the script remains a challenge. Using the AirTurn DUO 200 with your teleprompter application, you can start and stop the script, even speed it up or slow it down!

Accessories for Vlogs and YouTube Setup

Vlogging equipment and YouTube setup tools from AirTurn are ultra-portable, durable, and easy to use! The AirTurn DUO 200 has become an indispensable tool for Vlog production. Use it to start and stop a recording or run a script or both!

The perfect companion accessories to the AirTurn DUO 200 are the AirTurn MANOS to hold your tablet or phone, along with the AirTurn goSTAND and Boom for your microphone or accessories. There are many different configurations to create your ultimate Vlog studio!

Hands-Free Wireless Bluetooth Remote Control Pedal

® The AirTurn DUO 200 is a hands-free wireless app control solution for iOS, Android, Windows, and Mac devices with Bluetooth 4. It works with software and apps that can receive keystrokes or MIDI commands. Turn pages, scroll lyrics or tabs, start and stop back tracks, cue lighting, effects, MIDI, video, photos, and more!

AirTurn has optimized the design of the DUO 200 for long distance performance and low energy consumption. Using the wireless Bluetooth 4 low energy technology, users can also update their DUO 200 with the latest firmware or modify the commands that it sends.

AirTurn has also created a unique Bluetooth pairing technology for the DUO 200. Pair on the fly to any host (open pairing) or lock to one host (closed pairing) to prevent multiple devices from being paired to the wrong host phone, tablet, or computer.

Key Features

- **Tough:** The ATFS-2 pedals are nearly indestructible, and are designed to outlast mechanical switches. Anti-skid control on the base keeps the DUO in place.
- **Silent:** Tactile yet completely silent switching, perfect for intimate performances and studio sessions. Will outlast any other switch on the market.
- **Rechargeable:** Lithium Polymer battery provides 150-200 hours of play time with a single charge. USB Micro Cable provided for charging with any USB charger.
- **Bluetooth:** At 150+ feet, AirTurn leads the industry with maximum operating range. Works with most tablets, phones and computers with Bluetooth 4 or higher. Windows computers must have the latest MIDI over Bluetooth features to support MIDI connection.
- **Status Indicators:** Bluetooth status LED. Low battery status LED.
- **Power Saving:** - Automatically turns off when the host tablet or computer is turned off.

Customization

- Choose from 7 default modes that cover hundreds of apps or assign custom keystrokes and shortcuts as well as MIDI commands using the free AirTurn Manager app for Mac, iOS and Android.
- Adjust a full range of settings including: Keyboard strokes including modifiers, MIDI Commands and Notes, Auto-Repeat, Idle Time, Low Power or Fast Response Mode, Debounce, and Switch Types. Switches may be defined as Momentary, Latching, Pulse or Command.
- Two pairing methods: Open pairing lets you store the connections of up to 8 different devices for instant connections. Closed pairing stores the connection for only one device and does not connect erroneously to other devices.
- Use multiple pedals: Configure up to 8 devices at the same time for max customization.

Product weight: 9 oz (.25 kg), Product Dimensions: 7x4x1in (178x102x25mm)

**The AirTurn DUO 200 will not work with iPads 1 and 2 (Model numbers A1219, A1337 and A1395 - A1397). If the manufacturer of the tablet says it works with a Bluetooth 4.0 keyboard, it will work with the DUO 200.*
