

# AIRTURN™ PEDpro

freedom to perform

## Bluetooth Wireless Silent Footswitch Controller

Lightweight, low-profile wireless footswitch.

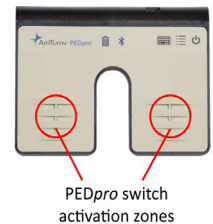

Experience customized hands-free app control. Keep your hands on your task and take your practice and performance to a new level.

- Turn pages, scroll lyrics and tabs
- Advance slides for presentations
- Capture video, photo, and more!

### Simple, Elegant Solution for Page Turning and Scrolling

The AirTurn PEDpro is a low profile, unobtrusive, dual footswitch for providing hands-free switching. Because there are no moving parts, there is very little to wear out. You simply connect to your Bluetooth and load your favorite AirTurn compatible app and you are ready to go. Select from over 100 apps that can display your music, lyrics or tabs. Load up your music and easily switch to the next song in the play list and turn pages or scroll through lyrics for each song.

The unique design of this footswitch uses pressure to actuate the switching. Two raised/ridged zones identify the switch locations. A bit of practice and the action will become second nature. *(Please note that very soft shoes and bare feet may be more challenging as they wrap around the raised zones.)*

PEDpro switch activation zones

#### Paperless

No more paper flying away or heavy books to carry. Go green!

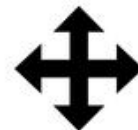

#### Hands-Free

Keep your hands on your task.

#### Wireless

No more cables to clutter your setup.

#### Versatile

Hundreds of compatible apps.

### Remote Control for Teleprompters and Presentations

Using a teleprompter has become a popular solution due to easy and affordable access to apps and tablets. However, controlling the scroll of the script remains a challenge. Using the AirTurn PEDpro with your teleprompter application, you can start and stop the script, even speed it up or slow it down!

Whatever your favorite presentation software, from Powerpoint to Prezi or Keynote to Google Slides, you can keep your hands free and present with confidence.

# Hands-Free Wireless Bluetooth Remote Control Pedal

® The AirTurn PEDpro is a hands-free wireless app control solution for iOS, Android, Windows, and Mac devices with Bluetooth 4. It works with software and apps that can receive keystrokes or MIDI commands. Turn pages, scroll lyrics or tabs, start and stop back tracks, cue lighting, effects, MIDI, video, photos, and more!

AirTurn has optimized the design of the PEDpro for long distance performance and low energy consumption. Using the wireless Bluetooth 4 low energy technology, users can also update their PEDpro with the latest firmware or modify the commands that it sends.

AirTurn has also created a unique Bluetooth pairing technology for the PEDpro. Pair on the fly to any host (open pairing) or lock to one host (closed pairing) to prevent multiple devices from being paired to the wrong host phone, tablet, or computer.

## Key Features

- **Silent:** Touch-switch technology that works like the button on a microwave.
- **Max Battery Life:** A rechargeable battery provides 150-200 hours play time with a single charge.
- **Max Range:** At 150+ feet, we lead the industry with maximum operating range.
- **Endless Apps:** Hundreds of compatible apps for reading music/lyrics/tabs, triggering backing tracks/effects, MIDI, video/lighting and more!
- **Low-Profile:** Get the latest AirTurn technology in a lightweight package with the lowest profile.

## Customization

- Choose from 7 default modes that cover most apps or assign custom keystrokes and shortcuts as well as MIDI commands using the free AirTurn Manager app.
- Adjust a full range of settings including: Keyboard strokes including modifiers, MIDI Commands and Notes, Auto-Repeat, Idle Time, Low Power or Fast Response Mode, Debounce, and Switch Types. Switches may be defined as Momentary, Latching, Pulse or Command.
- Two pairing methods: Open pairing lets you store the connections of up to 8 different devices for instant connections. Closed pairing stores the connection for only one device and does not connect erroneously to other devices.
- Use multiple pedals: Configure up to 8 devices at the same time for max customization.

Product weight: 5.3 oz (.15 kg)

Product Dimensions: 6x4.5x0.7 (152x114x18mm)

*\*The AirTurn Pedpro will not work with iPads 1 and 2 (Model numbers A1219, A1337 and A1395 - A1397). If the manufacturer of the tablet says it works with a Bluetooth 4.0 keyboard, it will work with the PEDpro.*
